Applicant Interview and Selection Timeline:

- a. Applications must be received by **15 April 2023**.(1600 EST)
- b. Application screening: 1-15 May 2023
- c. Phone interview screening: 15-30 June 2023
- d. In-person interview: 5-6 August 2023
- e. Inform interviewees of results: 2 weeks post-interviews.

Selection Process:

Applications are accepted until 1600 on 15 April 2023. A board of unit pilots will then perform an initial assessment of the applications and invite some number (usually about ten) applicants to interview.

Transportation and lodging expenses for the interview will be at the applicants' expense. A board of 125th Fighter Wing F-15 officers will conduct the interview. The interviewers will evaluate the applicants on:

- a. Historical performance in education and work to date through review of GPA, academic pursuits, work history, awards, and letters of recommendation.
- b. Flight aptitude through review of AFOQT and TBAS scores, aviation experience, and aviation related work history. Previous flight experience is not required, but is a positive input.
- c. Officership and leadership potential and commitment through a subjective evaluation of the "whole person" and through questions during the interview period.

The selection board may choose a primary UPT candidate and alternates. The board will forward their packages to State Headquarters - Florida Air National Guard for approval by the Officer Action Board and the Adjutant General of Florida. After this approval, we will notify all finalists of the results of the selection process.

Candidate Processing:

The selected candidate will then complete a Flying Class I physical and begin paperwork to obtain the required security clearances. Both of these, the security clearance in particular, can require a significant amount of time to complete.

UPT Pipeline Training:

- **Total Force Officer Training (TFOT) - 8 weeks (if necessary)**

TFOT is the Air National Guard's officer commissioning course in Maxwell AFB, Montgomery, AL. The course provides basic instruction in management, leadership skills, and military customs and courtesies. Graduates of TFOT are commissioned as Second Lieutenants in the Air National Guard.

- **Initial Flight Screening (IFS) - 6 weeks**

IFS is now a prerequisite for UPT, even for those candidates that possess a private pilot's license. It consists of 25 hours of flight training in a non-military light aircraft to build basic flying skills before entry into UPT. The location is Pueblo, Colorado.

- **Joint Specialized Undergraduate Pilot Training (JSUPT) - 12 months**

The full name for UPT reflects changes in the last 8 years that have combined primary flight training with the Navy and instituted a "track" system (specialized) for the second phase of training where students train in aircraft related to their future operational aircraft. The total program includes about 208 flying hours, 60 simulator hours, 254 academic hours, and 185 officer development hours. It's an intense year of flying training including instruction in aerobatics, formation, instrument, and low-level flying. Fighter track students fly the T-38 Talon during the specialized second phase. Graduates earn Air Force wings and proceed to advanced training.

- **Centrifuge - 1 day**

Instructs techniques for increasing g-tolerance through classroom and centrifuge training on high-g physiology and proper g-loading mitigation techniques.

- **Introduction to Fighter Fundamentals (IFF) - 6 weeks**

Introduces pilots to fundamental fighter techniques. Provides a transition between UPT and follow-on fighter training.

- **F-35A Basic Operational Course - 9 months**

Initial qualification and mission training in the F-35A at Luke Air Force Base, Phoenix, AZ. Qualifies students to fly and employ the F-35A in the air-to-air

combat arena.

- **Basic Survival Training - 3 weeks**

Presents training in principles, procedures, equipment, and techniques for survival in a range of climatic conditions and unfriendly environments. Course is at Fairchild AFB, WA.

- **Water Survival Training - 4 days**

Trains aircrews to survive in a water environment and assist in their recovery. Course is at Naval Air Station, Pensacola, FL.

If you are selected, you will be expected to serve as a full-time reservist during pilot training (approx. 16 months) and for at least 8-12 months with the squadron for seasoning training. The specific number of seasoning days depends on available funding for that fiscal year. The purpose of seasoning training is to build a base of F-35 flying experience.
